

Noel

Noel is a bay three year old mare, taken from the wild herd in December of 2010. She was found in one of the manmade canals in the Carova beach area, where she somehow had fractured her femur and was unable to climb out. Noel was rescued and taken to Wrangler Farms to recover. She is halter broke, very sweet, and stands a petite 12.5 hands, making her an excellent horse for children and small adults.
